

Steeple Run New Pool Build FAQ (March 2024)

- When will the pool build start?
 - The current goal is to begin demo after Labor Day (2024) if permits and all necessary steps can be completed.
- How long will the project take? When will the new pool be open?
 - This will depend on when project can begin as well as the weather throughout fall/winter of 2024 and spring/summer of 2025.
 - If there is early freezing or a very cold/brutal winter that could significantly impact construction and project length.
 - We need to plan on the pool NOT being open for the summer of 2025.
 - If the pool project is by chance completed early, staffing and finding a pool manager and lifeguards for a short period could be extremely difficult.

Pool operational questions (6-Lane Competition Style option vs. 4-Lane 'L'-Shape Option)

- Can the pool open earlier than 12:00pm?
 - This is an operational/staffing protocol and would need to be voted on and approved by the Steeple Run Community Council.
 - Any increase in hours would end up costing more in salaries and other operational costs which has not been currently budgeted into our community yearly dues.
- Can adult/lap swimming be open during swim team practice? (Before 12:00pm)
 - The “before-operational hours” pool use by the swim team has been approved currently for Swim-Team Practice only.
 - The swim team provides their own Coaches/Lifeguards for this practice time.
 - The Steeple Run board has not authorized pool usage by any other parties before non-operational hours due to liability, insurance and staffing regulations.
 - This is to protect all community members from all legal and insurance regulations and liability.
